

ACANA

FEED

the

ADVENTURE

MADE BY PET LOVERS
FOR PET LOVERS

ACANA's Biologically Appropriate foods feature ranch-raised meats, free-run poultry, and freshwater fish with nourishing ratios of meat, organs, and cartilage or bone. Our recipes deliver nutrients naturally, with farm-fresh ingredients and real, protein-rich meat, so your cherished dog's diet is loaded with nourishment. Just like you, we want the best for your pet, to keep them happy and healthy.

INGREDIENTS WE LOVE

DELIVERED BY PEOPLE WE TRUST

A Biologically Appropriate diet means mirroring the richness, freshness, and variety of whole prey meats that dogs have evolved to eat. Our Fresh Regional Ingredients are raised and supplied by people we know and trust, and are delivered fresh or raw, directly to our kitchen.

LIMITED INGREDIENT DIET

TURKEY & GREENS

PORK & SQUASH

DUCK & PEAR

LAMB & APPLE

BEEF & PUMPKIN

LIMITED INGREDIENTS SHOULDN'T MEAN LESS MEAT

Our single-protein diets feature one animal ingredient, perfect for healthy dogs with food sensitivities. They are also great for fussy eaters or for incorporating into a rotational feeding routine. Loaded with our grass-fed lamb, free-run duck or turkey, fresh pork, or ranch-raised beef, ACANA Singles nourish your dog completely.

TRANSITIONAL FEEDING

Transitional feeding is when you're switching your dog from one food to another. This should be done slowly, giving your dog's body time to adjust. A gradual incorporation of a new food helps prevent stomach upsets, so adding it in 25% increments can make this transition smooth and comfortable.

ROTATIONAL FEEDING

Rotational feeding is beneficial for your dog in many ways. It mimics their ancestral diet, helps support a strong gastrointestinal environment, and provides your dog with a variety of flavors. To rotate, simply mix different ACANA flavors as often as you wish—every day, every week, or by the bag. Your dog will thank you for it.
